# TILTING BRATT PAN

**-ARISTO**

- Low Pressure Tubular burners , fire failure safety valve and Piezo ignition.
- Heat-insulated: limited heat radiation and low energy consumption.
- Both automatic and manual tilting mechanism to facilitate pan emptying smooth large surfaces, easy access for cleaning.
- Unit to have stainless steel feet with height adjustment up to 50 mm.
- Double skin lid equipped with silicon gasket, counter balanced with hinges which stays open at any position and an ergonomic front handle.
- Integrated water faucet as standard.
- The Pan will be constructed from 3mm 304 grade stainless steel with Duomat Plate.
- Electrical versions are available.
- Manual as well as motorised tilting with Gas/Electrical Cut -off System on Pan Tilting.
- Electrically heated models use shielded stainless-steel heating elements located under the bottom of the pan.
